WHAT IS CLAIMED IS:

- 1. An occupant protection system, comprising:
 - a seat pan arranged below a seat cushion:
- an inflatable airbag arranged above the seat pan for pushing the front section of the seat cushion from below; and
 - a gas generator for inflating the airbag in an emergency, wherein the airbag and the gas generator are mounted to the seat pan.
- 2. An occupant protection system according to Claim 1, wherein the airbag extends along the width direction of the seat pan, opposite ends of the airbag being connected to the seat pan.
- 3. An occupant protection system according to Claim 1, wherein the gas generator is arranged along the upper surface of the seat pan.
- 4. An occupant protection system according to Claim 1, wherein the gas generator is arranged along the lower surface of the seat pan.
- 5. An occupant protection system, comprising: a seat pan configured to be mounted to a seat frame below a seat cushion; an inflatable airbag mounted to the seat pan to inflate above an upper surface of the seat pan to push a front section of the seat cushion from below; and
- a gas generator mounted to the seat pan and connected to the airbag to inflate the airbag.
- 6. An occupant protection system according to Claim 5, wherein the airbag extends along the width direction of the seat pan, opposite ends of the airbag being connected to the seat pan.

- 7. An occupant protection system according to Claim 5, wherein the gas generator is arranged along the upper surface of the seat pan.
- 8. An occupant protection system according to Claim 7, wherein the upper surface of the seat pan includes a recessed area, and the gas generator is arranged in the recessed area.
- 9. An occupant protection system according to Claim 5, wherein the gas generator is arranged along the lower surface of the seat pan.
- 10. An occupant protection system according to Claim 9, wherein the seat pan includes an opening, and the gas generator is connected to the airbag via a pipe extending from the gas generator, through the opening, to the airbag.
